Dear Parents,

Once again it is the time of the year to do school physicals. The state of Illinois requires school physicals at Kindergarten, 5th grade, and 9th grade. Please call to schedule your physicals early, as time slots fill up fast. Sports physicals are required yearly. Immunizations should also be updated.

If you have special concerns pertaining to your child, please let us know when scheduling your appointment so appropriate time can be allotted for the appointment.

Thank You
